

# NEWS FLASH

National Accounts/Brokers

January 2020

With the start of the New 2020 Year, Meridian Waste has expanded its solid waste collection and disposal services into the Tar Heel State - North Carolina. We are now servicing roll off accounts – both permanent MSW business accounts and temporary C&D accounts - in Raleigh, NC!

The acquisition of the Shotwell companies includes one C&D landfill, two C&D transfer stations, one hauling company, and one MSW transfer station from which we can internalize waste to our Lunenburg, VA MSW landfill.

The acquisition press release is attached or can be found on our website's News Room. Also attached is the most updated database zip code listing that defines our services by zip code and now includes the Raleigh marketplace. The database can also be found on our National Accounts webpage at <https://www.meridianwaste.com/national-accounts/>.

We look forward to expanding our business relationship with you, our national account partners, as we grow our operational footprint.
