Dear Daniel Williamson:

Based on the trainings provided, you received at least 10 hours of approved recertification training, which meets the requirement for renewal of your Solid Waste Technician certificate.

Enclosed is your new certificate. Please review your certificate and ensure that you earn at least 10 hours of approved training during the three year period prior to its expiration. If you do not receive the necessary hours of training before your certification expires, you will be required to retake the Solid Waste Technician Certification Course to become recertified.

If you have any questions regarding recertification, please contact me at 573-526-3910 or at P.O. Box 176, Jefferson City, MO 65102. Thank you for participating in the Solid Waste Technician Certification Program.

Sincerely,

WASTE MANAGEMENT PROGRAM
