**Set Out Time:** Place carts curbside **the night before** or **no later than 6:00 AM** on your collection day.

**Containers:** 95-gallon **BLUE** Wentzville cart for trash. Only Meridian Waste provided containers will be serviced.

**Additional Carts:** Extra 95-gallon **BLUE** Wentzville carts will be provided and serviced for an additional monthly fee of \$5.00 per cart. To avoid blowing litter and to keep your carts fresh and minimize odors, please place securely bagged materials inside the cart (the cart lid **MUST** fully close). Additional bags can be collected when prepaid and scheduled in advance at a rate of \$3.00 per bag. If you regularly have more trash than one cart can hold, adding a second **BLUE** trash cart may be a more cost-effective option.

**Proper Protocol:** Recommend materials be securely bagged and placed inside the cart (the cart lid must fully close). Extra **BLUE** carts for large quantities of trash are highly encouraged versus scheduling bagged waste.

**Quantity Limits:** Base service includes one full cart (no overflow; lid must fully shut). When scheduled and paid for in advance, additional bags will be removed at a rate of \$3.00 per bag. Individual trash bags **CANNOT** exceed 40 lbs.

## EXPLOSION DANGER!

**Instructions:** **ITEMS MUST BE CLEAN**, with non-paper items rinsed and labels removed. **Do NOT bag recyclable materials.**

**Proper Containerization:** Recycling in Wentzville is curbside single stream, meaning all acceptable recyclable materials are collected in a single cart. **ONLY** the contents **WITHIN** the recycling cart are collected; **NO** items left outside the cart will be collected.

## NOT ACCEPTED in Recycling Cart NO Glass, Plastic Bags, Plastic Films, or Construction Materials

Glass, plastic bags, and plastic films (such as cling wrap and plastic seals and sheets in packaging) are **NOT ACCEPTED** in the curbside recycling program due to the fact they cannot be separated out again and contaminate the processing of other recyclables, unfortunately rendering the entire batch unusable.
